Why choose the Vanderbilt Spine Center?

Value and Quality: You and your patients can rest assured of both — we report patient outcomes, and we compare the costs required to achieve those outcomes.

Comprehensive care: You can rely on us to help care for all your patients with spinal disorders, including degenerative, deformity, tumor and trauma.

Collaborative effort: Your patients will benefit from a team approach that involves all disciplines, including neurosurgery, orthopaedics, physiatry, radiology and physical therapy.

Evidence-based: Our evaluation and treatment approaches are based on medical evidence generated by ourselves and other leaders in the field.

Innovative: Your patients will have access to the latest and most advanced treatment options.
